

SuperSixties @ Donington Park

May 30-31, 2026

Do you have a pre-'66 FIA TC, GTS or GTP racecar?

Come and race with us at the HSCC Donington Park Spring Trophy

Super Sixties Racing (formerly NKHTGT) was established in 1996 as the Dutch Championship for Historic Touring Cars and GT's. Nowadays it has evolved into a series of 6 race weekends in various countries, catering for touring cars, GT's and GTP's built between 1947 and 1965. We have drivers from Sweden, Germany, Belgium, the UK, France, Switzerland, Denmark and the Netherlands. SuperSixties raced at Brands Hatch in 2024 and will be back in the UK in May 2026, once again with the HSCC, for the Donington Park Spring Trophy '26.

Guest drivers are cordially invited to join us for our races at Donington. The entry fee is € 1195 for a 30-minute qualifying session and two 40-minute races. There will be a compulsory pitstop in both races, so sharing a car with two drivers is possible. Your car must be Appendix K compliant and run on Dunlop tires. A current HTP is preferred, but for those that are out of date or not quite there yet, we have an invitation class. SuperSixties is a national series, so you do not need an international racing license to compete with us. Come and join us! All info plus the online entry form can be found on the website: www.supersixtiesracing.com/race-with-us/. For more information, get in touch with Jan-Bart: info@supersixtiesracing.com.
